

DECLARATION OF CONSENT

By signing this declaration, you agree that your personal data (first name, group photos, individual photos, film footage and other personal data) provided as part of the communication and promotion of Meet and Code may be published in a contextual manner.

This means publication of information about and images of the funded events and thus also of the participants on our homepage and in our reporting via online and print media (email newsletter, social media flyer, homepage, social media, press) as well as in the context of promotional events. You transfer to Haus des Stiftens the transferable rights, unrestricted in terms of time, place and content, to any sound and/or image recordings made during and in the temporal and spatial context of the Meet and Code project events. The transfer of rights includes in particular the right to produce, reproduce, edit, distribute and publicly reproduce. Haus des Stiftens is authorized, but not obliged, to mention your name in the context of publication.

You also agree that Haus des Stiftens allows its partners in the project, the individual partners of the TechSoup Europe Network (a list of all TechSoup partners can be found at <http://www.techsoupeurope.org/where-we-work/>), as well as the main donor partner Amazon Deutschland Services GmbH, including all Amazon group companies (www.aboutamazon.de), to publish information about and visual material (photos and film) from the funded events in the same way.

The publication may refer to the names of the persons depicted and/or to the organization in which the event took place. It is used solely in the context of communication and promotion of Meet and Code.
